### Children hooked on addictive video games like Fortnite will be able to seek treatment on the NHS, after video gaming is classified as a medical disorder by the World Health Organisation (WHO).

The move comes amid increasing evidence of young players suffering psychological distress and family breakdown as a result of their addiction.

**Gaming becomes the latest addiction**

Millions enjoy getting lost for a few hours in a world of virtual reality, which has been recognised as a condition for the first time.

The World Health Organisation's classification of gaming disorder as a condition which is capable of debilitating addiction is an important moment in the shifting relationship between technology and society.

Concern among parents about the impact of smartphones in particular, and the response of technology firms to those concerns, has become a staple of the news agenda.

73

**SEXTING**

74

**When people talk about sexting, they usually mean *sending & receiving*...**

Naked pictures or 'nudes'...

...'underwear shots'...

...sexual or 'dirty pics'...

...rude text messages or videos.

75

**Why do children send inappropriate images / videos?**

There are many reasons why a young person may want to send a naked/semi-naked picture, video or message to someone else...

- A** joining in because they think that 'everyone is doing it'
- B** boosting their self-esteem
- C** flirting with others and testing their sexual identity exploring their sexual feelings
- D** to get attention and connect with new people on social media
- E** they may find it difficult to say 'no' if somebody asks them for an explicit image, especially if the person asking is persistent

76

**Blackmail, bullying and harm**

**Blackmail**  
An offender may threaten to share the pictures with the child's family and friends unless the child sends money or more images.

**Bullying**  
If images are shared with their peers or in schools, the child may be bullied.

**Sexting**  
can leave young people vulnerable to...

**Emotional distress**  
Children can feel embarrassed and humiliated. If they're very distressed this could lead to suicide or self-harm.

**Unwanted attention**  
Images posted online can attract the attention of sex offenders, who know how to search for, collect & misuse images.

77

**THE LAW....**

**Protection of Children Act 1978**  
Makes it an offence to take, make, show, distribute, possess (with a view to distribute) or publish an advertisement with an indecent photograph or pseudo-photograph of a child under the age of 18.

**Criminal Justice Act 1988 part XI**  
Makes it an offence to possess indecent images of children.

**Criminal Justice and Courts Act 2015 section 33**  
Makes it an offence to share private sexual photographs or films with the intent to cause distress.

**Sexual Offences Act 2003**  
Lists sexual offences and their definitions. If an image being shared is of a sexual act, police must find out whether a sexual offence has been committed and act accordingly.

78

**Police have only recently started filing **crime reports** about sexting...**

**If school choose to take an incident **to the police**, then officers must **record the crime**.**

A boy who sent a naked photograph of himself to a girl at school has had the crime of making and distributing indecent images recorded against him by police, the BBC has learnt.

The boy, aged 14, who was not arrested or charged, could have his name stored on a police database for 10 years.

79

## Outcome 21

*This is a police decision*

**"Further investigation, resulting from the crime report - which could provide evidence sufficient to support formal action being taken against the suspect - *is not in the public interest.*"**

Using this outcome code is *likely to mean* the offence *would not appear* on a future **enhanced DBS check** as that disclosure is a risk-based decision.

## Pornography Online

We have to accept how *easily accessible pornography is...*

“ Children are growing up in an overtly sexualised world. That includes easy access to porn and they need the skills to deal with it

Sion Humphreys  
NAHT policy adviser

Children should be taught about...

- ✓ body image
- ✓ attitudes & values
- ✓ portrayal of sex in the media

85

## Pornography Online

How many children watch pornography illegally?

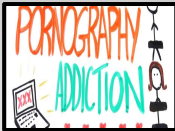

65% aged 15 - 16 year olds

1 in 10 primary school children

46% of 13 - 14 year olds

28% of 11-12 year olds

74% of 11 - 18 year olds said that *porn should be discussed in sex education*

86

## Sex and the Media

The reason it's important to cover topics such as *pornography or sex in the media* is that virtually all students will have seen 'sexy imagery' used within advertising & other media.

There is a real need to establish what *effect* it is having

Education Child Protection Ltd

87

## Body Image

It's easy for young people... to *confuse the very specific messages being conveyed by a lot of pornography* with the other messages they're receiving about *sexuality from other media outlets*

It is crucial that students get support to *develop their media literacy* so that they can understand that sex in the media & pornography can construct an *unrealistic 'normality' of sexual expectations*

88

## Attitudes & Values

They also need to explore their own attitudes & values relating to sexual ethics...

...and recognise that pornography and sexualised media *may impact on these*
